

HEM RAJ OJHA

Python/Django Developer — QA Engineer

☎ +977-9769843299 ✉ hemrajojha2613@gmail.com 🌐 github.com/hemraj2613 🔗 linkedin.com/in/hemraj-ojha-7871361a1

Summary

Python/Django Developer with a strong foundation in backend development, REST APIs, databases, and software quality assurance. Experienced in building database-driven web applications using Python, Django, Django REST Framework, SQL, and modern web technologies. Familiar with software testing, API testing, functional testing, debugging, test case preparation, and defect identification using tools such as Postman and Chrome DevTools. Skilled in developing authentication systems, dashboards, data-driven applications, and integrating backend services with frontend interfaces. B.Sc. CSIT graduate with hands-on experience through internships and academic projects, seeking opportunities in Python/Django development, QA, and software testing.

Skills

Programming: Python, JavaScript (ES6+), PHP, SQL

Backend: Django, Django REST Framework, Node.js, Express.js, REST API

Database: MySQL, SQLite, MongoDB

Data Science: Pandas, NumPy, Scikit-learn, Matplotlib

QA & Testing: Manual Testing, Functional Testing, Regression Testing, API Testing, Test Case Preparation, Bug Reporting, Debugging

Testing Tools: Postman, Chrome DevTools, GitHub Issues

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Bootstrap

Version Control: Git, GitHub

Tools: VS Code, Postman, Figma, Chrome DevTools

Other Skills: Django ORM, Authentication, API Integration, Debugging, Software Testing, Responsive Web Design

Projects

E-Shop – E-Commerce Web Application | *Python, Django, SQLite, Pandas, NumPy, Scikit-learn* 2026

- Developed a Django-based e-commerce application with product browsing, cart management, order placement, and inventory management.
- Built an analytics dashboard with KPI cards, monthly revenue trends, and order statistics using Django ORM and data visualization.
- Implemented Linear Regression for revenue forecasting and K-Means Clustering for customer segmentation using Scikit-learn.
- Performed functional testing and debugging of authentication, product, cart, order, and dashboard features.

Student Portal Mobile Application | *Flutter, Dart, Node.js, REST API, GetX* 2025

- Contributed to a student portal mobile application with authentication, profile management, courses, certificates, receipts, and notifications.
- Integrated REST APIs with the Flutter frontend and implemented application state management using GetX.
- Tested and debugged API endpoints using Postman and verified application functionality across different features.
- Identified and reported issues during development and collaborated on backend integration with Node.js.

Blood Bridge – Blood Donation Management System | *PHP, MySQL, Bootstrap, JavaScript* 2025

- Developed a web-based blood donation management system connecting blood donors with recipients.
- Designed and managed the MySQL database for donor, recipient, blood group, and blood request information.
- Implemented user and admin functionalities for managing blood donation requests and records.
- Performed functional testing, form validation, debugging, and verification of core application workflows.

Education

- **Bachelor of Science in Computer Science and Information Technology (B.Sc. CSIT)** – Kailali Multiple Campus, Dhangadhi, Kailali, Far Western University
- **Graduation:** 2026
- **CGPA:** 3.2

Certifications & Achievements

- Completed Python/Django and Data Science Internship – Clouds Nepal Web Pvt. Ltd. (2026)
- Completed Flutter Development Internship – CODE IT
- **1st Position** – Farwest Province Ideathon, CodeFest 2025

Soft Skills

- Problem Solving
- Team Collaboration
- Communication
- Attention to Detail
- Analytical Thinking
- Adaptability
- Continuous Learning
